

Redundant control module for FlexES Control

Part-No.: FX808328.RE

Redundant control module with slave-processor (CPU) for highest reliability of FlexES Control. Automatic switch-over to overtake all functions of primary control module in case of CPU failure/fault.

Weight	approx. 270 g
Dimensions	W: 27 mm H: 202 mm D: 112 mm

 EMC emission: Class A for individual application at redundant operation complies with EMC policy 2004/108/EG. The slave modul depends on the licences stored in the master controller.
